To: Rochelle City Council

Ref: Setting Containers in city limits

I Dale Stinnett owner of Metal Recyclers would like to get permission from the city council to set containers within the city limits for the purpose of construction waste and other needs that require a large tub container.

It is not my intention to pick up curbside garbage and therefore I would not be violating Rochelle's agreement with Rochelle Disposal. In reference to the agreement 78-7-pa-A there is no exclusive agreement on the setting of containers.

I request that if I am not granted permission to set containers within the city limits of Rochelle, IL that the City Council explain to me why I can not and that the city council show me in the agreement with Rochelle Disposal where they have exclusive rights to set all containers.

Sincerely,

Dale Stinnett
Metal Recyclers
