Re: 2012 Tandem Cab & Chassis Purchase

Fiscal year 2012/13 allows for the replacement of one single axle dump truck equipped with a plow and spreader. Allocations of \$128,000 were approved which includes a complete unit equipped with a dump body, front plow, wing plow and spreader. The equipment portion will be bid at a later date. Given that it takes several months to receive delivery and a cost increase effective May 15th 2012 of approximately 4% it would be best to receive approval to place the order now for the cab & chassis portion of the truck. No local vendors are able to supply the cab & chassis portion of the vehicle.

Included with this memo is the State of Illinois Solicitation #225684, Contract #PSD4016932 with Prairie Archway International located in Springfield Illinois. This contract allows for Municipalities and Government agencies to purchase vehicles that have been bid through the Illinois Department of Central Management at volume discounted rates.

Please consider approval for a new 2012 International 7400 Series Tandem Cab & Chassis delivered in the amount of \$74,888.00.
