Fees listed above are per vehicle. All special permit forms shall be on file at the Permitting Authority's office.

4. *Application Requirements.* The application for any such permit shall:
- a. specifically describe the vehicle and load to be operated or moved and the particular streets or highways for which the permit to operate is requested;

- c. state the routing requested, including the points of origin and destination, and may identify and include a request for routing to the nearest certified scale in accordance with the Illinois Department of Transportation; and
- d. state if the vehicle or load is being transported for hire.

The requirements in this section are not exclusive, and the City reserves the right to impose additional requirements thereunder.

- (c) *Permits to be Available Online.* Permit applications shall be available online. Applications shall be in a form that may be submitted online, and permits may be issued through electronic communication that the applicant must then print and carry within the vehicle.
- (d) *Fees To Be Deposited in Special Account.* All fee payments under this section, less any costs of administering the permitting process, shall be deposited in an account to be used only for maintenance, repair, and improvement of Truck Routes, as designated in § 94-530, within the jurisdiction of the City. The fees established by this section are deemed by the City Engineer to be sufficient to compensate in part for the cost of the extra wear and tear on the mileage of streets over which the Overweight Vehicle is to be operated.
- (e) *Permits for Vehicles for Hire.* No permits for the movement of a vehicle or load for hire shall be issued to any applicant who is required under the Motor Carrier Law to have a certificate, registration, or permit who does not have such certificate, registration or permit.
- (f) *Special Conditions to Permits.* The Permitting Authority is authorized to withhold any permit at its discretion when consistent with traffic safety or, if such permit is issued, to limit the number of trips, to establish seasonal or other time limitations within which the vehicle described may be operated on the streets or highways indicated, to require appropriate escort vehicles for the vehicle subject to the permit, or otherwise to prescribe conditions of operation of such vehicle, when such action in the judgment of the Permitting Authority is necessary to protect against undue damage to the road foundations, surfaces, or structures.
- (g) *Permits Required to be Carried.* Every permit shall be in written form and carried in the vehicle to which it refers and shall be open to inspection by any police officer or authorized agent of the Permitting Authority and no person shall violate any of the terms or conditions of such permit. Violation of the terms and conditions of a permit shall not be deemed a revocation of the permit; provided, however, any vehicle and load found to be off the route prescribed in the permit shall be held to be operating without a permit. Any off route vehicle or load shall be required to obtain a new permit or permits, as necessary, to authorize the movement back onto the original permit routing. No rule or regulation, nor anything herein, shall be construed to authorize any police officer, court, or

authorized agent of the Permitting Authority to remove the permit from the possession of the Permittee unless the Permittee is charged with a fraudulent permit violation. However, when the Permittee plans to raise the issuance of the permit as a defense against any violation of permit offense, operation without a permit when the vehicle is off route offense, or any size or weight offense under this Article, the Permittee, or his agent, must produce the permit at any court hearing concerning the alleged offense.

(h) *Violation of Permits Does Not Void Permit; Off Route Offenses.*

1. Violation of any rule, limitation, condition, or provision of any permit issued in accordance with the provisions of this Section shall not render the entire permit null and void, but the violator shall be deemed guilty of both a violation of permit under Sec. 94-534(i) and a violation of any size, weight, or load limitations in excess of those authorized by the permit under Sec. 94-537.
2. The prescribed route or routes on the permit are not mere rules, limitations, conditions, or provisions of the permit, but are also the sole extent of the authorization granted by the permit. If a vehicle and load is found to be off the route or routes prescribed by any permit authorizing movement, the vehicle and load is operating without a permit. An off route movement constitutes a violation for lack of required permit under Sec. 94-534(j) and, if applicable, a violation of any size and weight maximums as determined by the type or class of highway upon which the vehicle and load is being operated under Sec. 94-537.

(i) *Violation of Permits; Fines and Penalties.* Whenever any vehicle is operated or movement made in violation of a permit issued in accordance with this Section, the person to whom such permit was granted, or the driver of such vehicle, is guilty of such violation and either, but not both, persons may be prosecuted for such violations as stated herein. Any person, firm, or corporation convicted of such violation shall be guilty of a petty offense and shall be fined, in addition to any fine imposed under Sec. 94-537, shall be subject to the same penalties as set forth in 625 ILCS 5/15-301(j), as amended.

(j) *Violation for Lack of Required Permit.* If a vehicle is subject to a permit required by this Section, it shall be unlawful for any person, or any employee or agent of such person, to operate such vehicle without obtaining such permit. Any person charged with a violation of this section may be prosecuted for such violation. Any person convicted of violating this Sec. 94-534(j) shall be fined, in addition to any fine imposed under Sec. 94-537, not less than \$500.00 but not more than \$1,000.00. In no event shall a person be fined contemporaneously both under this Sec. 94-534(j) and Sec. 94-534(i).

Sec. 94-535. Appeal for Hardship Exemption.

The owner of any vehicle which is subject to the gross weight limit restrictions of Sec. 94-532 may submit a written Application for Appeal (“Appeal Application”) for a Hardship Exemption to the City Manager, or his designee.

- (a) Within seven (7) days of the filing of an Appeal Application, the City Manager, or his designee, shall schedule a hearing date thereon. The hearing shall commence within thirty (30) days of the date of the Appeal Application. The rules of evidence applicable in a court of law in the State of Illinois shall be relaxed at this hearing. The City Manager, or his designee, shall make a ruling and mail to each participant a written decision within fourteen (14) days from the date of the conclusion of the hearing.
- (b) If the City Manager, or his designee, determines that a valid hardship does exist, an exemption may be issued to the applicant. If, however, the vehicle weight limit restrictions are affirmed upon review, the administrative review action may be reviewed by a court if the petition for review is filed in the Fifteenth Judicial Circuit, Ogle County, or any other court of competent jurisdiction within thirty five (35) days of the date the ruling was mailed to any party.
- (c) It shall be mandatory for every exemption issued under this Section to be carried in the vehicle to which it refers and it shall be produced for inspection upon request by any police officer or any other municipal officer or employee having police power.
- (d) Hardship exemptions shall be granted only under extraordinary circumstances which are peculiar to the person seeking hardship and which are not generally applicable to others.

Sec. 94-536. Enforcement.

- (a) The City Engineer shall keep and maintain an accurate map showing the location of all Truck Routes, as defined in Sec. 94-530, which shall be made available to the public.
- (b) No person shall be charged with violating the provisions of Sec. 94-532 hereof upon any streets where the posting of signs is required under this Article, unless such appropriate signs are currently posted thereon.
- (c) Notwithstanding anything to the contrary contained in this Article, the Permitting Authority, City Prosecutor, and Chief of Police, individually or collectively, or any other person as determined by the Permitting Authority, shall have the authority to enforce all the provisions contained in this Article.

Sec. 94-537. Penalty for Violating Sec. 94-532.

Any person charged with a violation of Sec. 94-532 herein may be prosecuted for such violation. Any person who pleads guilty or is found guilty of violating Sec. 94-532 shall be fined according to the most current Overweight Bond Schedule issued by the Illinois State Police.

Sec. 94-538. Weighing of Vehicles and Removal of Excess Loads.

- (a) Any police officer having reason to believe that the gross weight of a vehicle and load is unlawful shall require the driver to stop and submit to a weighing process either by means of a portable or stationary scale that has been tested and approved at a frequency prescribed by the Illinois Department of Agriculture. If such scale is not available at the place where such vehicle is stopped, the police officer shall require that such vehicle be driven to the nearest available scale that has been tested and approved by the Illinois Department of Agriculture. Notwithstanding any provisions of the Weights and Measures Act or the United States Department of Commerce NIST Handbook 44, either multi draft weighing or single draft weighing is an acceptable method of weighing by law enforcement for determining a violation of this Article. City law enforcement vehicles are exempt from the requirements of commercial weighing established in NIST Handbook 44, as amended from time to time.
- (b) Whenever any police officer, upon weighing a vehicle and the load therewith, determines that said weight is unlawful and in violation of this Article, such officer shall require that the driver stop his vehicle in a suitable place and remain standing until such portion of the load is removed as may be necessary to reduce the weight of the vehicle to the limit permitted by this Article. All material so unloaded shall be cared for by the owner or operator of the vehicle at his or her sole risk, and such owner or operator shall indemnify and hold harmless the City, its officers, employees, and affiliates, from any claims or damages incurred therewith.
- (c) Any driver of a vehicle who refuses to stop and submit his vehicle and load to a weighing process after being directed to do so by an officer, or removes or causes the removal of the load or part of it prior to completion of the weighing process, is guilty of a business offense and shall be fined not less than \$500.00 but not more than \$2,000.00. The fines in this Section shall be in addition to any other fees or fines contained in this Article or under statutory law.
- (d) Notwithstanding anything to the contrary contained in this Section, the Permitting Authority may authorize police officers to set up and establish safety or enforcement check points. Any police officer at such check points is authorized to require a vehicle to stop and submit to a weighing without reason to believe the vehicle is overweight and require the driver to present any City permits it is

carrying. The Permitting Authority and all police officers shall comply with applicable Federal and Illinois law governing roadside check points.

Sec. 94-539. Liability for Damages to Street or Roadway Improvements.

- (a) Any person driving any vehicle upon any street within the City's corporate limits and the owner of such vehicle shall be jointly and severally liable for any damage which said street or appurtenant roadway improvements may sustain as a result of the operation, driving, or moving of said vehicle exceeding the maximum weight specified in this Article, regardless of whether or not a special permit is obtained in accordance with Sec. 94-534.
- (b) The measure of liability shall be either: (a) the cost of repairing the damaged street or roadway improvements if the street or roadway improvements are partially damaged, or (b) the depreciated replacement cost of said street or roadway improvement if the street or roadway improvements are damaged beyond repair. The measure of liability shall also include all other expenses incurred by the authorities in control of said street or roadway improvements in providing a temporary detour, including without limitation a temporary structure, to serve the needs of traffic during the period of repair or replacement of the damaged street or roadway improvements.

Sec. 94-540. Fees for Police Escort.

When City of Rochelle Police Department escorts are required for the safety of the motoring public pursuant to Sec. 94-534(f), the following fees shall be paid to the Permitting Authority by the applicant: \$40.00 per hour per escort vehicle based upon pre-estimated time of movement to be agreed upon between the Permitting Authority and applicant; provided, however, that a minimum fee of \$80.00 shall be imposed per escort vehicle.

Sec. 94-541. Vehicle Length, Width, and Height

Every vehicle that travels on any street within the jurisdiction of the City shall be subject to and comply with all the provisions contained in the Illinois Vehicle Code pertaining to length, width, and height.

Sec. 94-542. Trucking Advisory Committee

- (a) A Trucking Advisory Committee is hereby established. The Trucking Advisory Committee shall consist of three (3) members appointed by the Mayor with the consent of the City Council. The members of the Committee shall serve a term of three (3) years. In the event of a vacancy on the Committee, the appointment shall be made for the remainder of the term of the member whose position has become vacant.

- (b) The purpose of the Trucking Advisory Committee is to provide information to the City Manager, Mayor, and City Council on all issues related to trucking in and about the City of Rochelle, including, without limitation, the appropriateness of any proposed increases in overweight truck permit fees. The City Manager shall meet with the Trucking Advisory Committee from time to time, as circumstances reasonably require.

- (c) The fees established under this Article shall not be increased unless the Trucking Advisory Committee is first consulted on the issue, unless the Chairman of the Trucking Advisory Committee has been notified of the proposed increase at least 30 days in advance of the City Council meeting at which the proposed increase will be voted on and fails to convene a meeting of the Trucking Advisory Committee prior to the City Council meeting.
