Re: Hanson Agreement for construction services for the partial parallel taxiway

I have attached a standard agreement for consultant services for architectural, engineering, planning and special services provided by Hanson Professional Services for Council Approval. This agreement is necessary in order to construct the partial parallel taxiway as shown in the airport layout plan and comprehensive plan.

Hanson Professional Services will provide Construction services with a not to exceed amount of \$64,050. The contract is for the construction of a partial parallel taxiway that will extend to the west of the existing ramp and reconnect to the runway.

The state of Illinois has reviewed the agreement and said that the fee for the construction phase appears reasonable and is approved for participation.

Approval of this contract will allow us to move forward with our airport expansion needs and serve the area for economic development, attracting new businesses and creating new jobs.

I recommend proceeding with the construction services agreement between the City of Rochelle and Hanson Professional Services.
