

Memorandum

To: Mayor and City Council
From: Lieutenant Dave Sawlsville
Date: 3/6/2014
Re: Illinois Medical Emergency Response Team Exercise

The Illinois Medical Emergency Response Team (IMERT) is a medical response team made of doctors, nurses, paramedics and support staff to respond to medical emergencies that impact a town's ability to provide emergency room type services. They are requesting the use of the parking lot south of the fire station in order to conduct a deployment operations exercise. In this exercise they will practice deployment of all their equipment including their tents. The date of the exercise is April 4th and 5th 2014. I will be in attendance for council meeting on 4/10 to answer any questions.
