Mr. Jason Bird  
Supt of Electric Operations  
Rochelle Municipal Utilities  
700 West Second Ave.  
Rochelle, IL 61068

Ref: Cost estimate for relay testing

Dear Mr. Bird;

Rochelle Municipal Utilities has expressed interest in having the distribution relays and generator relays in their electric system. BHM's proposal as described herein is for verification of the programming, setting and perform testing of approximately 140 relays to the arc flash recommended settings. There are approximately 84 generation relays and approximately 57 distribution relays. Electrical feeder circuits might need to be tied together in the system and the Cities line department will be responsible for tying the circuits together to perform the required test.

<b>Estimated Cost For Programming and Testing Distribution Relays</b>	<b>\$18,829.00</b>
<b>Estimated Cost For Programming and Testing Generation Relays</b>	<b>\$20,824.00</b>

BHMG appreciates this opportunity to provide the City these services. Should any questions arise, please contact me at your convenience.

Sincerely:

**BHMG Service Corp**
