Rochelle, IL 61068

**RE: Proposal for Professional Services
20th Street/8th Avenue Water Main Project**

Dear Adam,

Fehr Graham is pleased to present you with the following proposal for the above-referenced project. We understand the project to consist of designing the extension of approximately 2,700 lineal feet of water main located near 20th Street in Rochelle. More specifically, the project includes extending the existing main near 20th Street and 10th Avenue, south to 8th Avenue and continuing east to the existing main near 15th Street. We are prepared to provide the following scope of services to complete the design and permitting for this water main project.

SCOPE OF SERVICES

Survey, Engineering Design and Plan Preparation

Fehr Graham will supplement the previously completed topographic survey of the subject site, verifying the data is correct and collecting data on all recently constructed improvements. All visible structures, utilities, equipment, roadways and trees will be included in said survey. The survey will be completed utilizing the Illinois State Plane Coordinate System (West Zone datum of 1983 revised) and the 1988 North American Vertical Datum (NAVD-88). The completed topographic survey will be utilized in preparing the construction plans and specifications.

Fehr Graham will obtain other underground utility information through the design JULIE process. Utilizing the completed topographic survey, Fehr Graham will prepare the necessary engineering plans, specifications, and bid documents to bid and construct the project. Fehr Graham will be responsible for preparing the application associated with the IEPA Water Main Construction permit. Plans will be prepared in accordance with City of Rochelle and State of Illinois regulations and be signed and sealed by an Illinois licensed Professional Engineer.

Construction Observation

Once construction is underway, Fehr Graham will provide an on-site engineering technician for the duration of the construction project. Their role will include construction observation, construction layout, documentation of construction related issues, verification of materials, measuring of quantities, and contractor coordination. In addition to the on-site personnel, Fehr Graham will also provide construction engineering

services, including shop drawing and submittal reviews, contract management, pay request reviews, address construction related questions, project closeout/final inspection, and completion of construction record drawings (as-builts).

All of the above construction related services will be provided on a time and materials basis in accordance with the attached rate sheet. The hourly personnel rate includes all labor, equipment, and materials to complete the scope of services described above. Approval from the City of Rochelle will be secured prior to exceeding the fee estimate detailed below.

NGPL (Kinder Morgan) Permitting

Located within the project area are multiple NGPL natural gas pipelines. Fehr Graham will be responsible for coordinating the project with NGPL and in preparing the permit application necessary for NGPL approval. Given the uncertain nature of the permitting process and the design requirements, Fehr Graham proposes to provide these services on a time and materials basis in accordance with the attached rate sheet. Should the fees exceed those estimated below, approval from RMU will be secured prior to advancing.

EXCLUSIONS

The following items are not included in the scope of services proposed here.

- Preparation of easements and/or right-of-way documents
- Environmental studies, investigations or reports
- IEPA and NGPL (Kinder Morgan) permit fees
- Geotechnical investigations
- Materials inspection and testing

SCHEDULE

Fehr Graham will initiate this project immediately upon receiving formal authorization to proceed. At this time, it is anticipated construction will advance during the summer of 2016.

FEES

Fehr Graham will provide the services as outlined for the following fees:

Survey, Engineering Design, Bidding Documents & IEPA Permit Application		\$18,500
Soil Borings	ESTIMATE (Actual Cost +5%)	\$ 5,000
NGPL (Kinder Morgan) Permitting	ESTIMATE (T&M)	\$ 4,500
Construction Observation	ESTIMATE (T&M)	\$26,000

Payment for services rendered will be requested via an invoice prepared monthly.

AUTHORIZATION

I trust the information provided is in line with your expectations. If you would like us to proceed, please execute the attached Agreement for Professional Services and return a copy to my attention.

If you have any questions or would like to discuss this proposal in further detail, please don't hesitate to contact me. Thank you for your time and consideration.

Sincerely,

Brandy Williams, PE, PLS
Project Engineer

AGREEMENT FOR PROFESSIONAL SERVICES

Client Mr. Adam Lanning
Rochelle Municipal Utilities
333 Lincoln Highway
P.O. Box 456
Rochelle, IL 61068

815.562.4155

Description of Services:

Rochelle Municipal Utilities - 20th Street/8th Avenue Water Main Project

Fehr Graham will provide professional services by designing the extension of approximately 2,700 lineal feet of water main located near 20th Street in Rochelle, Illinois. More specifically, the project includes extending the existing main near 20th Street and 10th Avenue, south to 8th Avenue and continuing east to the existing main near 15th Street.

COST: The fee for performing the above services is estimated to be approximately \$54,000 as follows:

Survey, Engineering Design, Bidding Documents & IEPA Permit Application	\$18,500
Soil Borings	\$ 5,000
NGPL (Kinder Morgan) Permitting	ESTIMATE (T&M) \$ 4,500
Construction Observation	ESTIMATE (T&M) \$26,000

The attached General Conditions are incorporated into and made a part of this Agreement.

ACCEPTED AND AGREED TO:

I/we, the undersigned, authorize Fehr Graham to provide services as outlined above, and also agree that I/we are familiar with and ACCEPT THE TERMS OF THE ATTACHED GENERAL CONDITIONS.

GENERAL CONDITIONS TO AGREEMENT FOR PROFESSIONAL SERVICES

1. The Client requests the professional services of Fehr Graham hereinafter called "The Consultant" as described herein.
2. The Consultant agrees to furnish and perform the professional service described in this Agreement in accordance with accepted professional standards. Consultant agrees to provide said services in a timely manner, provided, however, that Consultant shall not be responsible for delays in completing said services that cannot reasonably be foreseen on date hereof or for delays which are caused by factors beyond his control or delays resulting from the actions or inaction of any governmental agency. Consultant makes no warranty, expressed or implied, as to his findings, recommendations, plans and specifications or professional advice except that they were made or prepared in accordance with the generally accepted engineering practices.
3. It is agreed that the professional services described in the Agreement shall be performed for Client's account and that Client will be billed monthly for said services. A 1½% per month service charge will be incurred by Client for any payment due herein and not paid within 30 days of such billing which is equal to an ANNUAL PERCENTAGE RATE OF 18%. Partial payments will be first credited to the accrued service charges and then to the principal.
4. The Client and the Consultant each binds himself, his partners, successors, executors, and assigns to the other party to this agreement and to the partners, successor, executors, and assigns of such other party in respect to this agreement.
5. The Client shall be responsible for payment of all costs and expenses incurred by the Consultant for his account, including any such monies that the Consultant may advance for Client's account for purposes consistent with this Agreement.
6. The Consultant reserves the right to withdraw this Agreement if not accepted within 30 days.
7. A claim for lien will be filed within 75 days of the date of an invoice for services (last day of services rendered) unless the account is paid in full or other prior arrangements have been made. All attorney fees incurred by the Consultant due to the filing of said lien or the foreclosure thereof shall be borne by the Client.

In the event suit must be filed by Consultant for the collection of fees for services rendered, Client will pay all reasonable attorney's fees and court costs.

If Client defaults in payment of fees or costs due under the terms of this Agreement and Consultant incurs legal expenses as a result of such failure, Client shall be responsible for payment for Consultant's reasonable attorney fees and costs so incurred.

8. The Consultant shall present, for the consideration of the Client, engineering and technical alternatives, based upon its knowledge and experience in accordance with accepted professional standards, with selection of alternatives and final decisions as requested by the client to be the sole responsibility of the Client.
9. Construction Phase Activities (When applicable) - In connection with observations of the work of the Contractor(s) while it is in progress the Consultant shall make visits to the site at intervals appropriate to the various stages of construction as the Consultant deems necessary in Agreement to observe as an experienced and qualified design professional the progress and quality of the various aspects of the Contractor(s)'s work. Based on information obtained during such visits and on such observation, the Consultant shall endeavor to determine in general if such work is proceeding in accordance with the Contract Documents and the Consultant shall keep the Client informed of the progress of the work.

The purpose of the Consultant's visits to the site will be to enable the Consultant to better carry out the duties and responsibilities assigned to and undertaken by the Consultant during the Construction Phase, and, in addition, by exercise of the Consultant's efforts as an experienced and qualified design professional, to provide for the Client a greater degree of confidence that the completed work of the Contractor(s) will conform generally to the Contract Documents and that the integrity of the design concept as reflected in the Contract Documents has been implemented and preserved by the Contractor(s). The Consultant shall not, during such visits or as a result of such observations of Contractor(s)' work in progress, supervise, direct or have control over Contractor(s)' work nor shall the Consultant have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected by Contractor(s), for safety precautions and programs incident to the work of Contractor(s) or for any failure of Contractor(s) to comply with laws, rules, regulations, ordinances, codes, or orders applicable to Contractor(s) furnishing and performing their work. Accordingly, the Consultant can neither guarantee the performance of the construction contracts by Contractor(s) nor assume responsibility for Contractor(s)' failure to furnish and perform their work in accordance with the Contract Documents.

10. Estimates of Fees - When fees are on a time and material basis the estimated costs required to complete the services to be performed are made on the basis of the Consultant's experience, qualifications, and professional judgment, but are not guaranteed. If the costs appear likely to exceed the estimate in excess of 20%, the Consultant will notify the Client before proceeding. If the Client does not object to the additional costs within seven (7) days of notification, the increased costs shall be deemed approved by the Client.
11. The Consultant is responsible for the safety on site of his own employees. This provision shall not be construed to relieve the Client or the Contractor(s) from their responsibility for maintaining a safe work site. Neither the professional services of the Consultant, nor the presence of his employees or subcontractors shall be construed to imply that the Consultant has any responsibility for any activities on site performed by personnel other than the Consultant's employees or subcontractors.
12. Original survey data, field notes, maps, computations, studies, reports, drawings, specifications and other documents generated by the Consultant are instruments of service and shall remain the property of the Consultant. The Consultant shall provide copies to the Client of all documents specified in the Description of Services.

Any documents generated by the Consultant are for the exclusive use of the Client and any use by third parties or use beyond the intended purpose of the document shall be at the sole risk of the Client. To the fullest extent permitted by law, the Client shall indemnify, defend and hold harmless the Consultant for any loss or damage arising out of the unauthorized use of such documents.

13. No claim may be asserted by either party against the other party unless an action on the claim is commenced within two (2) years after the date of the Consultant's final invoice to the Client.
14. If a Client's Purchase Order form or acknowledgment or similar form is issued to identify the agreement, authorize work, open accounts for invoicing, provide notices, or document change orders, the preprinted terms and condition of said Purchase Order shall be superseded by the terms hereof.
15. Standard of Care - Services performed by Consultant under this agreement will be conducted in a manner consistent with that level of care and skill ordinarily exercised by members of the profession currently practicing under similar conditions. No other representation expressed or implied, and no warranty or guarantee is included or intended in any report, opinion or document under this agreement.
16. Liability Insurance - Consultant will maintain such liability insurance as is appropriate for the professional services rendered as described in this Agreement. Consultant shall provide Certificates of Insurance to Client, upon Client's request, in writing.
17. Indemnification and Limitation of Liability - Client and Consultant each agree to indemnify and hold the other harmless, including their respective officers, employees, agents, members, and representatives, from and against liability for all claims, costs, losses, damages and expense, including reasonable attorney's fees, to the extent such claims, losses, damages or expenses are caused by the indemnifying party's acts, errors or omissions.

The Client understands that for the compensation herein provided Consultant cannot expose itself to liabilities disproportionate to the nature and scope hereunder. Therefore, the Client agrees to limit Consultant's liability to the Client arising from Consultant's professional acts, errors or omissions, such that the total aggregate liability of Consultant shall not exceed \$50,000 or Consultant's total fee for services rendered on this Project, whichever is less.

18. Allocation of Risk - Consultant and Client acknowledge that, prior to the start of this Agreement, Consultant has not generated, handled, stored, treated, transported, disposed of, or in any way whatsoever taken responsibility for any toxic substance or other material found, identified, or as yet unknown at the Project premises. Consultant and Client further acknowledge and understand that the evaluation, management, and other actions involving toxic or hazardous substances that may be undertaken as part of the Services to be performed by Consultant, including subsurface excavation or sampling, entails uncertainty and risk of injury or damage. Consultant and Client further acknowledge and understand that Consultant has not been retained to serve as an insurer of the safety of the Project to the Client, third parties, or the public.

Client acknowledges that the discovery of certain conditions and/or taking of preventative measures relative to these conditions may result in a reduction of the property's value. Accordingly, Client waives any claim against Consultant and agrees to indemnify, defend, and hold harmless Consultant and its subcontractors, consultants, agents, officers, directors, and employees from any claim or liability for injury or loss allegedly arising from procedures associated with environmental site assessment (ESA) activities or the discovery of actual or suspected hazardous materials or conditions. Client releases Consultant from any claim for damages resulting from or arising out of any pre-existing environmental conditions at the site where the work is being performed which was not directly or indirectly caused by and did not result from, in whole or in part, any act or omission of Consultant or subcontractor, their representatives, agents, employees, and invitees.

If, while performing the Services set forth in any Scope of Services, pollutants are discovered that pose unanticipated or extraordinary risks, it is hereby agreed that the Scope of Services, schedule, and costs will be reconsidered and that this Agreement shall immediately become subject to renegotiation or termination. Client further agrees that such discovery of unanticipated hazardous risks may require Consultant to take immediate measures to protect health and safety or report such discovery as may be required by law or regulation. Consultant shall promptly notify Client upon discovery of such risks. Client, however, hereby authorizes Consultant to take all measures Consultant believes necessary to protect Consultant and Client personnel and the public. Furthermore, Client agrees to compensate Consultant for any additional costs associated with such measures.

19. In the event of legal action to construe or enforce the provisions of this agreement, the prevailing party shall be entitled to collect reasonable attorney fees, court costs and related expenses from the losing party and the court having jurisdiction of the dispute shall be authorized to determine the amount of such fees, costs and expenses and enter judgment thereof.
20. Termination - The obligation to provide further services under this Agreement may be terminated by either party upon seven (7) days written notice in the event of substantial failure by the other party to perform in accordance with the terms hereof through no fault of the terminating party. In the event of any termination, Consultant will be paid for all services rendered to the date of receipt of written notice of termination, at Consultant's established chargeout rates, plus for all Reimbursable Expenses including a 15% markup.
21. Provision Severable - The unenforceability or invalidity of any provisions hereof shall not render any other provisions herein contained unenforceable or invalid.
22. Governing Law and Choice of Venue - Client and Consultant agree that this Agreement will be governed by, construed, and enforced in accordance with the laws of the State of Illinois. If there is a lawsuit, Client and Consultant agree that the dispute shall be submitted to the jurisdiction of the Illinois District Court in and for Stephenson County, Illinois.
