Re: T and E for 5Kv system

David,

I would like to extend the Time and Equipment contract with Big D, they are the contractor we have on site working on the 5Kv conversion. Pending budget approval there would 900,000.00 in the budget. I would recommend extending the contract to not to exceed \$450,000.00 or the completion of phase 1, which ever comes first. Attached is the hourly rate of Big D. Big D is working with RMU crews and progress is being made.

Thanks!
