Re: Disposal or Sale of the Airport's 1999 Ford Crown Police Interceptor vehicle

- 1) The above referenced vehicle was transferred from the Police Department to the Rochelle Airport over 5 years ago. The vehicle has high mileage, is very rusty, has a failing transmission and the 4 supports holding the gas tank are nearly rusted through. Due to this last point, we are concerned with a possible fire and the liability should that occur. Repairs for this, the transmission, and other problems with the car, has been determined to be more than the car is worth.
- 2) Since this vehicle poses a concern for safety, it has been sitting idle on the airport grounds for the past 3 weeks. The vehicle will be sold to a local salvage company and the value is not expected to be any more than \$500. An ordinance is required to authorize the sale of certain personal property now owned by the City of Rochelle, consisting of a 1999 Ford Crown Police Interceptor vehicle.
- 3) Please consider approval of an ordinance authorizing the sale of personal property.
