

September 28, 2015

Mr. Jason Bird
Supt of Electric Operations
Rochelle Municipal Utilities
700 West Second Ave.
Rochelle, IL 61068

Ref: SEL-2030 Change out

Dear Mr. Bird;

Rochelle Municipal Utilities has expressed interest in having their existing SEL-2030 communications processors upgraded to SEL-3530 (RTAC) modules. There are approximately 10 SEL-2030 processors left in the RMU system.

BHMG's proposal as described herein is to replace the existing communications processors at each location with SEL-RTAC communications processors. BHMG will provide the processors, remove the existing processors and do programming on each unit. During the upgrade process there will be off and on communications back to Com Ed and PJM. BHMG proposes that all of the existing communications processors be replaced at the same time thereby eliminating multiple scheduling of communications interruptions.

Estimated Cost For RTAC Change Outs \$183,246.00

BHMG appreciates this opportunity to provide RMU these services. Should any questions arise, please contact me at your convenience.

Sincerely:
BHMG Service Corp.

Chuck F. Fiessinger
