The subject property is zoned R5 (Multi-Family-High Density Residential) and has a lot size of 66' x 123.75. The lot is vacant land. On October 23, 2017, the City approved by ordinance to acquire the property. The City obtained a written appraisal, prepared by state certified appraiser Ryan L. Herbig of Midwest Appraisal Services, LLC. November 1, 2017. The written appraisal set the value of the property at \$6,000.00 and was available for public inspection. On November 27, 2017, the City passed a resolution authorizing the sale of surplus real estate. Required by the Illinois Municipal Code, 65 ILCS 5/11 76-2, notice has been published of the proposal to sell the City's interest in the property and bids have been invited for the purchase of the City's interest in the property, with the first notice published on March 11, 2018 and having been published for three successive weeks thereafter. - 3) **Adoption of Resolutions and Ordinances for the Northern Gateway Tax Increment Financing (TIF) District.** In an effort to address blight, aging infrastructure and vacancies in our Northern Gateway, the establishing of the Northern Gateway TIF would assist with potential development. An established Northern Gateway TIF would encourage private investment, assist to restore and enhance the tax base by the development or redevelopment of the area, provide public infrastructure upgrades throughout the area and provided incentives for retail/commercial development in an area where development would not occur but for the use of tax increment financing. This ordinance, which the City is required to pass under the TIF Statute, establishes the Interested Parties Registry. The Interested Parties Registry allows all individuals who reside, or have places of business, within the City to receive all necessary information regarding the TIF District. The Inducement Resolution allows the City to recoup the costs of establishing the TIF. The Feasibility Resolution informs the taxing districts that the City is in the process of reviewing Eligibility/Feasibility factors of the TIF Area. With the permission of Rochelle City Council, Moran Economic Development, LLC will undertake a feasibility study on the designation of a redevelopment project area. The area that is proposed for tax increment financing encompasses parcels along IL Route-38, IL Route-251 and Flagg Rd. Keith Moran was present to answer questions.
