Rochelle City Council,

I am writing this letter of support for Rochelle Police Department in an attempt to create new parking ordinances around the schools of Rochelle School District #231. We have thoroughly enjoyed how much stronger our working relationships have become over the past few years as we try and make our schools as safe as possible. The parking and drop off/pick up procedures have been an ongoing safety concern for many years. Officer Wittenberg and Jakymiw have come up with a possible plan to help student and traffic safety. I hope you will consider their proposal and give feedback to any other possible ideas that we as a school. I look forward to working with you now and in the future.
