To land larger projects, Enterprise Zones that surround the Lee Ogle EZ have adopted a tiered approach to tax abatements based on the size and impact a project brings to the Zone. The larger the capital investment, higher the wages and/or number of jobs being created the longer the tax abatement schedule. The Lee-Ogle EZ Board recently approved a three-tier tax abatement schedule based on a project's economic impact. The base of each tier is as follows:
- Tax Abatement Schedule
- Base Tier: no job minimum, no capital investment minimum: 6 years at 50%/year
Must maintain 75% of jobs to retain abatements (Same as present rules) (Same as present)
 - Extended Tier: 75+ new jobs, \$50M+ capital investment: 10 years at 50%/year
(Must maintain 95% of jobs to retain abatement)
 - High Impact Tier: 125+ new jobs, \$100M+ capital investment, 16 years at 50%/year

- 5) **Engineering Agreement for Wastewater Treatment Plant Upgrades Phase II.** As we continue to rehab the Wastewater Treatment Plant, according to the 20-year capital improvement plan, we have selected Willet Hofmann's proposal to provide engineering and construction management services for the Wastewater Treatment Plant Upgrades Phase II. The system upgrades include the construction of a second new fine screen option and dewatering unit for the influent bypass channel, new piping to connect the anaerobic lagoon effluent piping to the headworks building, convert aeration bays 5-8 for biological nutrient removal, replace the clarifier drive units and demolish three existing tertiary sand filters, and install four cloth type tertiary filters. These upgrades will increase the efficiency of the treatment process and will bring it up to date since the lagoons are in poor condition due to overgrowth of vegetation and erosion plus sludge deposits within the lagoon. The sand filters need to be upgraded to meet the needs of upcoming phosphorous regulations in addition to the equipment being approximately 30 years old and requiring extensive maintenance costs. The secondary clarifiers are another critical treatment process with equipment that is also 30 years old and in dire need of repair. Like phase one, the concrete infrastructure will remain in place and we will just be replacing the mechanical portions of these treatment processes. If concrete repairs or linings are needed, we will do so to preserve the integrity of the structure. The project will be funded by an IEPA loan and will be close monitored to keep cost down. We will do some in-house construction management work to potentially off-set a portion of \$240,000 construction observation cost. Utilities Superintendent, Adam Lanning was available for questions. Motion made by Councilor Gruben and seconded by Councilor Shaw-Dickey, **"I move the council approve an Engineering Agreement for Wastewater Treatment Plant Upgrades Phase II between the City and Willett Hofmann & Associates, Inc. at a not to exceed cost of \$682,000 for the multi-year project and authorize the City Manager to sign the agreement."** Roll call vote was taken. Ayes: Burke, Gruben, Hayes, D. McDermott, T. McDermott, Shaw-Dickey and Mayor Bearrows. Nays: None. Motion passed 7-0.
- 6) **Electrical Equipment Update at Well #8 (Caron Road).** As part of the ongoing efforts to rehab Well #8 and update the aged equipment, a proposal from Engel Electric Company was requested following the recommendation from Water Well Solutions to install an in-line filter on the load side of the VFD to protect the well submersible pump motor. As you may recall the VFD was replaced over the summer due to an electrical fire incident therefore, Engle Electric has also provided a proposal for the surge protection device and breaker on the service line to the well pump VFD to mitigate future loses. We opted to hire Engel Electric since they have been part of this project from the beginning. The cost for the upgrades is well under the spending authority of the City Manager however, we would like to keep you informed of the cost since this is part of the overall rehab project of Well #8. Adam Lanning was available for questions. Motion made by Councilor D. McDermott and seconded by Councilor Shaw-Dickey, **"I move the Council approve Engel Electric's proposal and proceed with the recommended electrical upgrades for well #8 at a cost of \$21,941."** Roll call vote was taken. This resolution is a 5-year extension to the expired lease agreement for their dark fiber along Rt 39. The term of the agreement is from 11/1/2020 to 11/1/2025, with the monthly amount being \$6,567.29.
