

Administrative Committee Minutes of Thursday, July 12, 2012

Council Persons Present: Ed Rice, Kathy Hollonbeck, Dave Eckhardt, Chairman

We approved the minutes of the May 23rd, 2012 meeting. Bruce presented a change to our door to door peddler program. He proposed using/requiring peddlers to be finger printed by the State Police now as our local police can no longer run this kind of information for us unless they have a criminal reason. The idea was approved by the committee by 3-0 and will go to council. Next a discussion took place regarding sidewalk requirements at Squires Landing East. The developer Ryan Fitzgerald, and land owner Spencer Hayden spoke to the issue. It will be recommended to the council to allow the land owner/developer to put in temporary sidewalks with ag-lime. The developer agreed to finish all corners with handicap ramps that are up to city/federal code. The UDO was discussed briefly and Dave said he will be setting up a special group to discuss this issue and how to proceed.
