This includes, but is not limited , to getting all of the equipment serviced, cleaning up debris, getting the pro shop stocked and ready for customers and getting the course ready for play. In the winter we had 24 dead trees cut down and the large branches removed and no cost to our operations. We still have about 40 tree stumps to be ground up and removed and have a contractor set up to do the work for \$1500. Todd Quitno has provided a layout for possible enhancements to the course and has provided us with a map which is in the pro shop. More to come on this later. The painting work at the pro shop and cart barn will be finished as weather permits.
