- 16) **Outage Management System.** PSE assisted Rochelle Municipal Utilities (RMU) in generating a Request for Proposal for an outage management system (OMS). In turn, RMU assisted in the evaluation of the responses. Proposals were received from four vendors. The table below lists the vendors as well as the initial and 5 year on-going costs for each proposed system.

<b>Vendor</b>	<b>Initial System Price</b>	<b>Annual Maintenance</b>	<b>5 Year Cost</b>
dataVoice	\$96,570	\$12,250	\$159,045
Milsoft	\$78,750	\$12,000	\$138,750
OSI	\$199,700	\$19,200	\$298,021
Utilismart	\$104,250 + TBD	\$44,484	\$326,670

To determine which system is best for RMU, each vendor was evaluated based on the following five categories: Functional Requirements, Key Technical Questions, Integrations, References and Experience with similar utilities and Price. From this evaluation, dataVoice is the clearly preferred system for the following reasons:

- Functional Requirements - dataVoice was stronger on functional requirements. Other vendors required additional software modules not included in the base bid to meet critical functionality including notifying crews of outages and allowing crews to interact with the OMS.
- Key Questions - dataVoice offered a strong solution to the questions posed.
- Integrations - To perform the necessary functionality, the OMS must integrate with Caselle CIS, Esri GIS, Elster AMI and CRC call center. dataVoice offered the strongest solutions for integrations with RMU software systems. Other vendors required significant additional software to be developed to support the integration, either by the vendor at a cost or by RMU.
- References - dataVoice had the strongest references with similar municipal utilities.
- Price- dataVoice was competitive on price.

While each vendor had strengths, the totality of the solution proposed by dataVoice best meets the functionality required by RMU and best overall value. Jason Bird was present to answer questions. Motion made by Councilor D. McDermott and seconded by Councilor Burke, **"I move the council accept the proposal from dataVoice for an Outage Management System in the amount of \$108,820 for the first year with an additional \$12,500 annual maintenance fee for four years thereafter and reject all other proposals."** Roll call vote was taken.
